

Your Profit Leak Audit — data request

GENESIS · ~15 MINUTES

To run your audit we need a few standard reports out of Genesis — **no login access, no PHI beyond what billing already contains**. Export each as **Excel or CSV** (not PDF) for the same date range, and send them back. That's it. Menu names vary slightly by Genesis version; if a label differs, look for the report that produces the described data.

THE 5 REPORTS WE NEED

1. Payer Mix by insurance company

Genesis: Report Center → Payer Mix / Insurance Breakdown

Patient count by insurance carrier for the period. This tells us your book of business by payer.

2. Procedure / Provider Productivity charges & payments by code

Genesis: Report Center → Procedure Analysis / Provider Productivity

By CPT / case type: units, amount charged, insurance paid, patient paid, and total collected. This drives revenue-per-visit and CPT profitability.

3. Collections by Provider payments received

Genesis: Report Center → Collections / Payments by Provider

Payments received in the period, split by provider and payment source (insurance vs. patient, cash/card/check/ERA).

4. Insurance Aging / A/R outstanding claims

Genesis: Report Center → A/R Aging / Insurance Aging

Open claims by payer and age bucket (0–30, 31–60, 61–90, 90+). This is where uncollected revenue and stalled claims surface.

5. Unapplied / Unallocated Payments money not yet credited

Genesis: Report Center → Unapplied Payments / Credits

Payments received but not applied to a patient account. Often thousands of dollars sitting uncredited — a fast, direct recovery.

► **How to get started** — step-by-step directions on the next page

STEP-BY-STEP DIRECTIONS

HOW TO SET EACH REPORT

- **Date range:** last 3 full calendar months (by date of service).
- **Providers:** all providers.
- **Payers:** all insurance + self-pay.
- **Export as:** Excel (.xlsx) or CSV — **not PDF**.
- **Name files** by report + month, e.g.
PayerMix_JanMar.xlsx.

PRIVACY & SECURITY

- We sign a **Business Associate Agreement (BAA)** before you send anything.
- Data is transferred over a secure upload link (not email) — bellecureinsights.com/upload.
- Prefer to de-identify? Patient **names aren't required** — an account ID is enough.
- We only use your data to produce your audit. Never shared or resold.

SEND IT IN 3 STEPS

- 1 Run the 5 reports above for the last 3 months and export each to Excel/CSV.
- 2 Drop all files into our secure upload link: bellecureinsights.com/upload.
- 3 We confirm receipt and deliver your Profit Leak Audit within about a week.

Questions or a different Genesis version? Email sandra@bellecureinsights.com and we'll walk you through it.
